

TremPly® KEE Protection Walkway

Enhances roof traffic safety and optimizes membrane protection in high-traffic maintenance areas.

DESCRIPTION

TremPly KEE Protection Walkway is designed to increase roof top safety with increased slip resistance and integrated reinforcement for additional membrane protection.

BASIC USES

TremPly KEE Protection Walkway is embossed with a low profile diamond plate design for increased slip resistance. The highly visible yellow color provides a direct path for rooftop traffic. The integrated reinforcement protects against possible damage from dropped or improperly handled materials.

APPLICATION

Install the TremPly KEE Protection Walkway Mats around hatches, doorways and other roof access points; around mechanical equipment that undergoes scheduled maintenance; or where there is frequent foot traffic.

You can easily cut TremPly KEE Walkway rolls into sizes and shapes to meet most application requirements, and continuously hot air welded directly to the TremPly KEE or KEE FB roof membrane.

The application information provided in this data sheet serves as general guidance. Please refer to Tremco application guides and project specific specifications or consult with your local Tremco Roofing sales representative for project specific application requirements.

PHYSICAL PROPERTIES

PROPERTY	TYPICAL VALUE
Walkway Material:	
Color	Yellow and Light Gray
Breaking Strength (lbs)	450
Dimensional Stability (%)	0.5% (max)
Roll Size	30 in x 100 ft (76 cm x 25.4 m)
Weight	50 ± 2 oz/yd ²
Thickness	60 mil (1.5mm)

TremPly® KEE Walkway and Protection Mat

MAINTENANCE

Your local Tremco Roofing representative can provide you with effective maintenance procedures, which may vary depending upon specific conditions. Periodic inspections, early repairs and preventive maintenance are all part of a sound roof program.

PRECAUTIONS

Users must read container labels and Safety Data Sheets for health and safety precautions prior to use.

TECHNICAL SUPPORT

Your local Tremco Representative, working with the Technical Service Staff, can help analyze conditions and needs to develop recommendations for special applications. The services of the Tremco Research Center, which has earned a unique reputation in weatherproofing technology, complement and extend the service of the Tremco Service Staff.
