**TREMCO**<sup>®</sup>  
ROOFING & BUILDING MAINTENANCE

# wall restoration

Tremco Roofing offers a unique wall coating restoration system to protect, revitalize and waterproof a variety of wall substrates, from masonry walls to metal to stucco.

- BRIDGE HAIRLINE CRACKS
- STOP WATER FROM ENTERING YOUR BUILDING
- RESTORE YOUR EXTERIOR WALLS TO THEIR ORIGINAL BEAUTY

## WALL PROBLEMS

### FREE WALL INSPECTIONS

Tremco Roofing offers no-obligation wall inspections to provide you the most beneficial solution to your particular wall restoration need.

Your wall inspection will cover two main areas — the condition of the wall and the details. Special attention is given to details such as the sealants at window sills, frames, trim and fascia.

chalking

flaking or peeling paint

cracks - hairline or larger

spalling and erosion

efflorescence

loose or missing mortar

mildew or fungus

# Solution

*Tremco Roofing offers a unique fibrated acrylic coating, Solargard Hy-*

*Build, to restore your aging walls. Applied at 24 to 32 wet mils, more than three times as thick as regular paint, it offers the waterproofing protection you desire in one coat. In addition, the fibers in the formula offer elasticity to allow for normal building movement while bridging hairline cracks. Developed in 1965, Solargard Hy-Build has a proven track record for performance, which is why we offer a 10-year warranty.*

*Tremco, an ISO 9001: 2008 certified company, provides the strictest quality controls to ensure product consistency and performance.*

## STRESS-FREE APPLICATION

### **Selecting a Contractor.**

Throughout the United States and Canada, Tremco Roofing works with a select group of contractors who are highly trained and experienced in installing all products. Your Tremco Roofing representative can provide you with names of contractors in your area, taking the guesswork out of selecting a quality contractor.

## LONG-TERM PERFORMANCE

Tremco Roofing's restoration systems offer a variety of warranties to ensure the performance of your wall restoration coating system. For all material and labor warranted coating projects, job site inspections are provided to ensure that your system will provide you with years of quality service life.

## SOLARGARD HY-BUILD ACRYLIC COATING

### *Acrylic Wall Coating System*

A high-solids, fibrated acrylic coating bridges small imperfections in the wall surface and provides a monolithic coat of protection.

- Reduces energy usage with its highly reflective white surface
- High film build bridges small gaps
- Elastomeric quality allows the coating to move with the wall
- 10 year warranty available ensures quality
- One coat application reduces installation costs
- Available in white and 16 standard pastel colors
- Custom colors available upon request

*We provide products and services for roof and wall restoration under the brand names of ALPHAGUARD®, ALUMANATION® 301, ECOLASTIC®, GEOGARD®, ICE, ROCK-IT®, SOLARGARD®, and TREMLASTIC®. Our products offer long-term performance and energy savings to ensure that customers have the right solution to meet their specific restoration needs. Tremco has been a leader in the roof coating and restoration industry since 1928.*

Tremco Roofing offers restoration solutions for:

- Built-Up Roofs/Modified Bitumen Roofs
- Weathered Single Ply Roofs
- Metal Roofs
- Foam Roofs
- Concrete Roofs
- Walls

#### **TREMCO RESTORATION SYSTEMS SUPPORT SUSTAINABILITY**

*Restoring roofs has been at the forefront of our philosophy for over 80 years. This positions our reflective roof surfaces to help today's customers meet their sustainability goals by extending the life cycles of buildings worldwide while helping lower energy usage.*

Tremco Roofing's restoration systems help meet sustainability goals because:

- They prolong the service life of structures for years
- Coatings are cost-effective over a second roofing layer, complying with building codes and postponing replacement for years
- There's no tear off, which eliminates landfill issues and fees and does not disrupt building occupants
- Reflectivity reduces energy consumption, the strain on HVAC systems, and a building's carbon footprint
- The Urban Heat Island Index is lowered, benefitting everyone
