

## *Roofing & Building Maintenance*

**We deliver peace of mind to building owners, facility managers, design professionals and contractors by managing roofing and building lifecycles for customers in all industries. Let's discuss how we can help you.**

Tremco has the most comprehensive roofing and weatherproofing solutions for restoration, replacement, repair and new construction.

- || Liquid applied solutions for roofs and walls*
- || Traditional roofing systems: single ply, modified bitumen, built-up and metal; vegetated roofing*
- || Insulation and related products*
- || Safety: Railings, ladders and other fall protection equipment; rooftop safety audits and solutions*
- || Repair and maintenance to ensure roof performance*
- || Nationwide network of highly qualified contractors*
- || Sales representatives and specialists from coast to coast*

**These exceptional solutions are only part of what separates us from other companies. Our time-tested, comprehensive roof asset management program, which includes consulting, diagnostics, multi-year budgeting, planning, project management and maintenance, will keep your roof working for you for decades**
