

Primer/Splice Wash

Solvent - Based Primer For Self-Adhering

Uncured Flashing & Cured Cover Strip

Composition: Tremco primer / splice wash is a solvent-base primer designed to be used to prepare surfaces of single ply membrane for bonding with Uncured Flashing and Cured Cover strip.

Basic Uses: Tremco Primer/Splice Wash was specifically developed for use with EPDM single ply roofing membrane. However, it can be used with most types of single ply membranes as a wash to clean and prime membrane in one operation prior to applying self-adhering tapes.

Limitations:

- Apply at temperatures over 40° F (4° C)
- Do not apply over wet surfaces
- When stored below 40° F (4° C), store the primer/splice wash at room temperature 72° F (22° C) for at least three days before using.
- Must be mixed before and during use.
- Do not dilute

Color: Clear

Packaging: 4- 1Gallon Containers/Case

Storage Life: Nine months stored indoors, out of direct sunlight, in original unopened container between 60° F (15° C) and 80° F (26.6° C).

Product Advantages	
Features	Benefits
Combination primer/wash	• Reduces labor cost
Rapid drying	• Increase speed of application
Increases adhesion	• Immediate bond

Surface Preparation: Surface must be clean, dry, free of dirt, oil, debris, dust, and other contaminants.

Application: Scrub the surface of the membrane with a clean Scotch-Brite[®] pad (manufactured by 3M) saturated with the primer/splice wash. Membrane surfaces should appear wet while scrubbing. Apply the primer/splice wash to an area wider than the actual width being bonded to insure bonding to primed surfaces. When the pad becomes dirty, discard appropriately and use a fresh pad. The primed surface must be dry to the touch before tape products can be applied.

Coverage: 200-250 sq.ft./gal

Precautions: Use Primer/Splice Wash with adequate ventilation. Users must read container labels and Material Safety Data Sheets for health and safety precautions prior to use.

Availability and Cost: Contact your local Tremco Roofing Representative for pricing and availability. For the name and number of your Representative, call the Roofing Division at 216/292-5000.

Maintenance: Your local Tremco Roofing Representative can provide you with effective maintenance procedures which may vary, depending upon specific conditions. Periodic inspections, early repairs and preventive maintenance are all part of a sound roof program.

Guarantee/Warranty: Tremco Inc. warrants Primer/Splice Wash to be free of defects and to meet published physical properties when tested according to ASTM and Tremco standards. Under this warranty, any Primer/Splice Wash product that is proved to be defective when applied in accordance to our written instructions, and in applications recommended by Tremco as suitable for this product will be
