### **Tremco Roofing and Building Maintenance Introduces New Rooftop Sealer**

BEACHWOOD, Ohio (January 18, 2012) –[Tremco Roofing and Building Maintenance](http://www.tremcoroofing.com) is pleased to announce the introduction of TremSeal™ Pitch Pocket Sealer to its line of roofing products, to help protect roof surfaces, flashings, and rooftop equipment from damaging water intrusion.

TremSeal Pitch Pocket Sealer solves many of the common sealing problems a contractor encounters on low-slope commercial roof systems. “This is a versatile, rooftop urethane sealer for pitch pans, lightning terminals, and general-purpose use,” said Kurt Sosinski, director of product management for the company. “It’s an easily applied, two-component system that fully cures in as little as 30 minutes and has no odor or VOCs. It is a strong, durable sealer with high compressive strength which develops excellent unprimed adhesion to masonry, metal, bituminous roofing plies, and many other common roofing materials. Its excellent UV resistance makes it especially useful for sealing rooftop equipment details, since it holds up extremely well during long-term rooftop service.”

#### **About Tremco Roofing and Building Maintenance**

Headquartered in Beachwood, Ohio, Tremco Roofing and Building Maintenance helps manage building life cycles for customers in education, healthcare, government, manufacturing and many other industries. Tremco Roofing and Building Maintenance is a division of Tremco Incorporated, which has been in business since 1928 and is itself part of the RPM Building Solutions Group, an international leader in the construction, maintenance and repair markets. Tremco Roofing works closely with Tremco Incorporated subsidiary WTI, which provides general contracting and roofing services. Both Tremco Roofing and WTI are ISO 9001:2000 certified.
