

Introducing the Canadian Cooperative Contractor Network

Best-in-Class Local Contractors
for Your Roofing and Building
Envelope Projects Available
through Kinetic GPO

Kinetic GPO RFSO Contract Number 24-06
Roofing Supplies and Services, Waterproofing
and Related Products and Services

The Canadian Cooperative Contractor Network

Available Through Kinetic GPO

✓ What is the Canadian Cooperative Contractor Network (CCCN)?

The **Canadian Cooperative Contractor Network** program allows Broader Public Sector and MASH entities in Canada to leverage the competitively solicited Kinetic GPO contract for construction, maintenance, repair and restoration projects, ensuring transparency, quality, and cost efficiency. Administered by **Tremco Construction Products Group** (CPG) in partnership with **Kinetic GPO**, this network streamlines the procurement process by prequalifying contractors and eliminating the need for complex bidding specifications. Public entities can confidently award work to trusted local contractors while benefiting from faster project timelines and competitive pricing.

✓ Who can use the Canadian Cooperative Contractor Network?

Any Kinetic GPO member may source and secure in-network contractor services through the Kinetic GPO RFSO Contract #24-06. Kinetic GPO members can capitalize on a network of highly qualified, local and regional best-in-class, prequalified, contractors for their roofing and building envelope projects.

✓ Why should a Public Sector MASH entity use the Canadian Cooperative Contractor Network?

- Kinetic GPO members can choose the contractor and roofing or building envelope solution.
- Ability to procure roofing and building envelope solutions and associated contractor services via a pre-competed compliant solicitation.
- Comfort knowing the contract was awarded based on best value.
- Efficient contractor selection with quality assured through the QCsolver compliance program.
- WTC has deep experience collaborating with, training and evaluating best-in-class contractors.

✓ How are members of the Canadian Cooperative Contractor Network selected?

Contractors who apply to be part of the Canadian Cooperative Contractor Network must meet or exceed a variety of predefined criteria representing industry best practices to utilize the Kinetic GPO contract. **Criteria include:**

- | | | | |
|--|--|--|--|
| • Industry past performance demonstrating technical capabilities | • A record of proven safety performance | • Prevailing wage documentation | • Acceptance of required contract terms and conditions |
| • Financial stability and creditworthiness | • Insurance requirements, including liability and workman's compensation | • Never been debarred from public work | • Participation in QCsolver |

If you'd like to encourage a local contractor to apply to the Canadian Cooperative Contractor Network, ask them to email CCCNadministrator@tremcoinc.com.

✔ What is QCsolver?

In-Network contractors are part of QCsolver, a cloud-based software that Tremco uses to manage the qualifications and compliance of its contractors in Canada. It is a repository for the documentation needed for submittals, housed in one place, and reviewed by an independent third party. Through QCsolver, public entities can see immediately if their chosen contractor is compliant with the submittal process. It also provides a tangible record of the due diligence necessary to engage a qualified contractor.

✔ What is the pricing structure?

Pricing delivered through the Canadian Cooperative Contractor Network delivery model is fully transparent, consistent and fair. There are no budget surprises because established, competitive, line-item prices are based on the RSMeans construction cost database, an industry standard for more than 75 years.

✔ What services are available through the Canadian Cooperative Contractor Network?

The contracts allow for the furnishing of labour, materials and equipment for roofing and building envelope and related products and services including but not limited to:

Roofing for all roof types

- Maintenance and repairs
- Diagnostics
- Roof restoration and replacement
- New roof construction
- Sustainable roofing systems
- Leak Response
- Rooftop safety solutions

Building Envelope

- HVAC assessments and restoration
- Parking garages
- Deck coatings
- Façade work
- Windows/Doors

Construction Services Disaster Response

PLEASE NOTE: All service aspects may be provided directly to the Kinetic GPO member by CCCN In-Network contractors, serving as the prime contractors.

BEST-IN-CLASS LOCAL CONTRACTORS FOR YOUR ROOFING AND BUILDING ENVELOPE PROJECT

**The Canadian Cooperative Contractor
Network (CCCN) gives Kinetic GPO members
the unique ability to work compliantly
with their preferred roofing and building
weatherization contractors who qualify.**

Tremco Construction Products Group (CPG) and Weatherproofing Technologies Canada (WTC) have a long history of excellence in construction and renovation for Broader Public Sector and MASH entities across Canada. Now, sourcing qualified local contractors is streamlined through the Canadian Cooperative Contractor Network, administered by Tremco CPG and WTC, and available to Kinetic GPO members.

THE POWER COUPLE: TREMCO ROOFING AND WTC

As an industry leader since 1928, Tremco Roofing and Building Maintenance offers a breadth and depth of roofing solutions for every environment and the technical know-how to solve our customers' biggest problems. And because our affiliated construction services company WTC* (Weatherproofing Technologies Canada) offers turnkey maintenance, repair, roof management and general contracting services for the entire building envelope, we have the unique ability to provide a total solution to maximize building performance and our customers' return on investment.

*WTC is wholly owned by RPM Canada, a General Partnership. Tremco Roofing and WTC are part of Tremco Construction Products Group.
