

What are the benefits of the Cooperative Purchasing Process?

SPEED. QUALITY. COMPLIANCE.

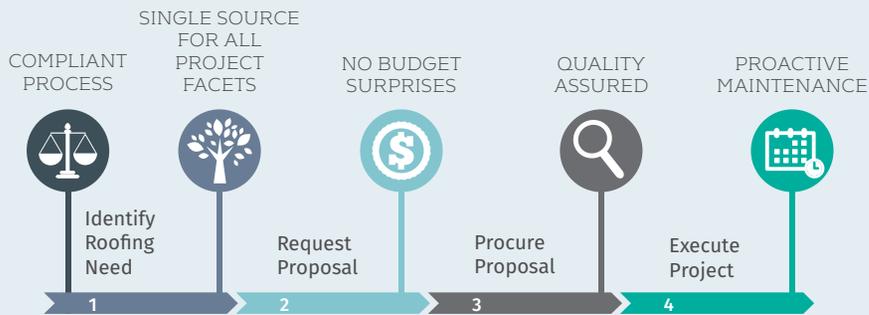

THE TRADITIONAL PUBLIC BID PROCESS

POTENTIALLY LENGTHY, MULTI-STEP ODYSSEY THAT CAN TAKE MONTHS TO COMPLETE

THE COOPERATIVE PURCHASING PROCESS

ADDS VALUE AND SIMPLIFIES YOUR PROJECT

TREMCO | **wti**
ROOFING & BUILDING MAINTENANCE

Cooperative Contracts
TRUST IN EXPERIENCE. STRENGTH IN NUMBERS.

- In the cooperative purchasing process, lead agencies act as a government agency to competitively solicit and publicly award purchasing contracts pursuant to state regulations. The transparent process is designed to satisfy the procurement needs of public entities.
- Because the bid process has been completed, projects can begin quickly, often in as little as 30 days.
- The vendors whose products and services are available through these cooperative contracts have been evaluated on quality and performance.
- Up front pricing via established line items eliminates surprises to ensure budget predictability.

Tremco Roofing/WTI's high performance products and services are available through several leading contract purchasing contracts which may vary by state. If you're interested in world class diagnostics, innovative products for every environment, and essential maintenance and construction services to maximize the performance life of your buildings, contact us today.
