■ = Express Colors ▲ = Must specify supplier. Contact Metal-Era for specific color information.

Express colors are available in shorter lead times for 24 ga., .040" and .050" only. Standard lead times, which may be longer, apply for 22 ga. and .063".

Please note this chart is only a representation of color options. Color matches should only be made with actual samples. Please call or write for actual metal sample(s). Protective film must be removed immediately.

These color reproductions are as accurate as modern printing technology will permit and may vary slightly from actual colors supplied. Finished color chip samples are available upon request. Customer is responsible for color selections chosen from printed literature.

Tremco receives metal through multiple vendors. If a specific metal vendor is required for a project, please specify this at the time of order.

Kynar 500® based fluropolymer coating is a high-grade architectural finish offering excellent resistance to degradation caused by nature's elements and airborne contaminants. A limited thirty (30) year warranty is available on the prefinished coil-coated steel and aluminum colors shown.

Kynar 500® is a registered trademark of Arkema, Inc. Valspar® is a registered trademark of Valspar Sourcing, Inc.

A limited ten (10) year warranty is included for post-painted Kynar-coated aluminum applications unless otherwise stated. A twenty (20) year warranty is also available only upon request at the time of order. Restrictions may apply; consult a sales representative for specific information.

Standard anodized finishes that utilize a continuous coil anodizing process to provide excellent color consistency from piece to piece are available. However, shade variations may occur from coil batch to coil batch. Class I batch anodizing is also available.
